

Remote Work & Local Data Caching FAQ

Document Code: DOC-FAQ-03 | **Type:** FAQ | **Current Version:** 1.0

Organization: ApexNova Global Technologies | **Department:** DATA_AI | **Precedence Level:** 3

Version 1.0 — Informal remote data analysis FAQ.

Section FAQ-3.1: Q: Can I download CSV data to my laptop to analyze in Excel?

A: If your home internet connection is slow, you can save report CSVs on your desktop for faster formulas. (Note: Contradicts DOC-POL-02 and DOC-SOP-05 which strictly prohibit unencrypted local PII data storage).

Section FAQ-3.2: Q: Which browser is recommended for cloud analytics portals?

A: Google Chrome or Microsoft Edge with enterprise sync enabled are the supported corporate browsers.
