

Incident Response, Triage & Breach Notification SOP

Document Code: DOC-SOP-01 | **Type:** SOP | **Current Version:** 2.0

Organization: ApexNova Global Technologies | **Department:** CYBER_SEC | **Precedence Level:** 2

Version 2.0 — Shortened Sev-1 breach reporting from 24h to 4h, strict forensic chain of custody, and 5-day RCA report SLA.

Section 1.1: Incident Severity Classification

Incidents are classified from Severity 1 (Critical data breach or total platform outage) to Severity 4 (Minor cosmetic bug). Sev-1 requires immediate incident commander assignment.

Section 1.2: 4-Hour Critical Breach Notification SLA

Upon confirmation of a Severity 1 cybersecurity breach involving customer records, the Incident Commander must notify the CISO and Data Protection Officer within 4 hours.

Section 1.3: Evidence Preservation & Chain of Custody

Memory dumps, system audit logs, and network capture packets must be cryptographically hashed and copied to isolated forensic storage with documented chain of custody.

Section 1.4: Post-Incident Root Cause Analysis (RCA)

A blameless Post-Mortem and formal RCA report must be published within 5 business days of incident resolution.
